News from the Board

September was a busy month with the election and the start of a new fiscal year. We have five new Directors eager to get started in governing our community. There was some discouraging news: the previous Board had to raise dues to comply with a bill passed earlier this year concerning facility maintenance and reserve funding. Many of our members are now becoming aware of what a reserve study is and how it is funded. As with any new topic, there are some misconceptions associated with it.

1. Thinking it is not necessary to do and update the Reserve Study. Every year the conditions of our assets change as well as the cost of replacing or repairing them. Our Reserve funding must keep up with these conditions. Reserve contributions are a large budget item and it makes sense to plan and be prepared to handle maintenance.
2. Thinking delaying a project will save the Association some money. Timely repairs and replacement projects can go smoothly if the funds are available. It is not uncommon to see projects increase in cost from one year to the next because of deferred maintenance and delays causing unnecessary higher costs for our homeowners.
3. Thinking "It's not my problem, it's a future problem someone else can deal with". Roofs, asphalt, windows, etc, all start to deteriorate the day they are first installed. Reserve contributions offset future expenses and when the time to repair or replace them comes due the funds are available with no "one-time" assessments necessary.
4. Thinking contributing 50% less than our required contribution each year will result in the Association's reserve fund being 50% less than when it is required. It takes a significant amount of cash to provide for the timely repairs and replacements of the Association's components. But it takes 10 to 15% more to add some "margin" to your reserve to be on track and be fully funded when the project comes due. Cutting reserve contributions dooms the Association to having inadequate cash, leading to deferred maintenance, special assessments, and a host of other problems.

President's Message

By Lou Mangerpan

First, I would like to thank all members for voting and electing our new Directors. Your vote is your voice and it is important the Board hear it. Second, I would like to thank the outgoing Directors, John Barone and Joanne Grzywinski, for their service on the previous Board. They put in many hours to service this community and did a great job as Directors.

It is wonderful that we have a full Board to start this fiscal year and I expect, as a team, we will work hard to meet the community's expectations. Looking ahead, this Board will work to keep our members informed on what is happening on the Board and in the community and why. They will also be very watchful concerning the community's financials and attempt to keep spending under control. As the year progresses, some key components in our facilities must be addressed to improve the Association's efficiency and safety. These will be addressed and covered at homeowner meetings. As always, if there are any suggestions or concerns you have as a member of this Association and community, please do not hesitate to bring them forward so our Directors can address them. The key to doing this is to attend the Open Board and Homeowner meetings. There you will hear and learn what is happening and why. It is also the place to address the Board with your concerns and suggestions. Looking forward to seeing you at these meetings.

GRASS CUTTING POLICY

Sprinkler heads are the Owner's responsibility

All Grass Cutting Issues must be reported to the HOA Office in writing, using the Lawn Complaint Form (forms are available at the HOA Office or on our website at (holidayheights.org). Please do not call the Lawn Contractor or a Director. A complaint form must be filled out for all complaints. No complaint form filled out will void the complaint.

Damage to property such as siding, fences, borders and sprinklers will be addressed in a timely manner. Our contractor has staff to handle these repairs. Should you have damage, please take responsible measures to prevent further damage. All complaints will be inspected by a director to determine the cause and action to be taken. Repairs made by homeowners prior to the Director's inspection and without authorization by the Board, will not be reimbursed. Please ensure the cutters have a clear path and your sprinkler heads are down on grass cutting days. Sprinkler heads damaged due to heads being raised during the cut cycle will not be repaired by the Lawn Contractor. If you have heads that do not retract, place red do-not cut flags around the head until you can have it repaired, also confirm all ground panels are secured.

Damage to lawns such as scalping and ruts will be considered on a case-by-case basis. Some will grow back without intervention. The majority of ruts are caused by the ground being over saturated due to recent rain and/or over watering by the sprinklers. The driver is most likely unaware of the saturated ground until it is too late. Ruts caused by Homeowners over watering their lawn will not be repaired by the Lawn Contractor. Please check your side and rear yards as needed to ensure the ground is not over saturated. If you find there are areas that are over saturated, please obtain red flags from the HOA Office and circle the saturated areas so the mowers know not to cut that area.

No Cut Signs are a violation and are subject to a fine if placed on your lawn.

"No Cut" flags are available in the HOA Office for those not wanting the Association to cut their grass. You will need to fill out the No Lawn Cut form and you will be given flags at the HOA Office.

Under normal soil conditions, grass requires only ½ to 1 inch of water per week. Our soils are generally wetter due to the high-water table and type of soil; therefore, discuss this with your sprinkler contractor and ask them to adjust the frequency and run times on your sprinkler system for roughly ¾ inch per week. Also ask them to adjust your system as needed throughout the watering season. Remember the water requirements for the area between the homes may be less than the front and back, work with your neighbors to establish a watering schedule. Watering your lawn every day is not needed unless it is a new seeding.

Contractor Disclosure in its entirety can be found on the Holiday Heights website

**ROBO CALL
FREQUENTLY ASKED QUESTIONS**

Q. My call gets cut off in the middle!

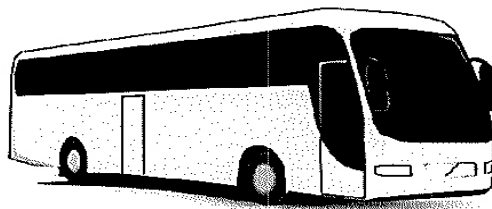

A. Be sure to give the HOA Robo Calls "Caller ID" so that the call will be accepted and let it go directly to your voicemail. Extend the message allowed time to 3 minutes which is the length of the weekly calls. You will also be able to play back the call to listen to any parts you may have not heard clearly.

Q. My calls get cut off as soon as I pick up the phone!

A. Let your calls ring at least two times. If you pick up too quickly, you may disconnect the computerized cycle within the system.

Please send any Robo Call questions and/or frequent issues to Carol Hudak @ ex. 219 to be included in next month's FAQs

KIRMS PHOTOGRAPHY Autumn Colors

Autumn is here and I'm looking forward to photographing this year's fall foliage. The leaves are starting to change. Hopefully the colors this year will be spectacular.

Before the colors are at their peak I look for individual trees that have great color. I also scout out areas that I think will look great at peak time so I'll be ready when the leaves finally turn. I prefer areas that have the trees reflected in water.

Check out the farm markets for some colorful shots and don't forget the cranberry harvest. Fallen leaves make interesting patterns, so don't forget to look down. Rolls of hay in the fields also make nice images.

A great way to enhance your images is using a polarizing filter. This filter works the same as polarizing sunglasses – it is designed to cut glare and reflections. Removing the glare from the leaves makes the colors brighter and more saturated. Simply rotate the polarizing filter until the sky or leaves are at their darkest.

Fall Foliage images are best shot on days when there is no wind. By scouting a great location ahead of time, using a polarizing filter, and applying good rules of composition you'll get some fantastic shots of this autumn's spectacular show.

That's it for this month. Send me an email at bill@KirmsPhotography.com with any photographic questions or problems. You can visit www.KirmsPhotography.com if you'd like to see some of my work. Keep shooting and trying to improve your images, but most importantly, have fun with your camera.

October is Breast Cancer Awareness month

Every year breast cancer accounts for approximately 30% of all new cancer cases in U.S. women. The median age at the time of breast cancer diagnosis is 62. Don't think "I'm 70 years old now, I can't get breast cancer", or I am only 45. I'm too young to get breast cancer." Although rare, 1 out of 8 invasive breast cancers are diagnosed in women younger than 45, or "I am a man, I don't have to be concerned about breast cancer." Once again, although rare, the average lifetime risk of a man getting breast cancer is 1 in 726 men.

Know your risks.

Talk to both sides of your family to learn your family health history. If you have tested positive for the mutated BRCA 1 or BRCA 2 gene, you are at a higher risk of developing breast cancer.

Get screened. Have a mammogram every year starting at age 40 if you are at average risk.

Know what normal is for you. See your doctor if you notice any of these changes: lump, hard knot or thickening inside the breast or underarm area; swelling, warmth, redness, or darkening of the breast; change in the size or shape of the breast; dimpling or puckering of the skin; itchy, scaly sore, rash, discharge, or pulling in or on your nipple. Take note of a new pain in one spot that does not go away.

Make healthy lifestyle choices. Maintain a healthy weight. Make exercise part of your routine. Limit alcohol intake. Limit menopausal hormone use. During childbearing years, breastfeed if you can.

Ignore the MYTH thinking you are exempt from breast cancer if you don't have a family history or are otherwise healthy.

Breast cancer can recur! Remain vigilant in getting your yearly screening!

Monthly Food Drive

The Monthly Food Drive, the last Friday of each month, is an ongoing drive that is in our second year. Please donate any non-perishable food items you can. There is still a need for donations in Ocean County. Many families are unable to afford food on an ongoing basis.

There are also bins outside our clubhouse that are taken in daily!!! Other communities are welcome to donate. Do your part if you can and donate. It will give you a warm and fuzzy feeling!!!!!!!

Mah Jongg

Ever since COVID hit, Mah Jongg players have had a hard time reorganizing. My apologies for taking so long to address this problem. As things stand now, Mah Jongg is played Monday from 1 to 4PM in the room next to the office, and on Wednesday from 1 to 4PM in the Arts and Crafts room. All players of any level are welcome. If you would like to learn, contact Marylou at 732-300-0921.

Social Club News

We are happy to announce that our membership drive for the 2024/2025 season of Social Club is going strong and we're glad to see that so many of our current members and many new members have already signed up. If you haven't joined yet, please visit us at our next meeting on October 17th and see one of our officers in the lobby who can help you sign up. Membership forms are available in the lobby for your convenience. Membership for this season is \$30.00 and includes entertainment, coffee, tea, beverages and dessert and at special events, when food is also included. All meetings are on the third Thursday of every month and doors open at 5:30.

Entertainment for this month's meeting is Charles Hassell, who is a DJ and singer and will also host our talented members in karaoke. That is certain to be a fun night.

Please check the lobby, the Courier and the robo calls for more information and updates. See you on the 17th.
